

WHEEL SEALS

MVP™ SERIES

The MVP™ Series wheel seals from Amsted Seals® are the choice of fleet professionals seeking to extend maintenance intervals on over-the-road trucks, trailers and buses. The single-piece design features NBR (nitrile) sealing lips and metal-to-metal contact on the OD for superior heat dispersion.

FEATURES

- Provides widest available shoulder coverage in the industry
- Three NBR (nitrile) lip contact barrier points (-25°F to 250°F, -30°C to 120°C)
- Oversized double-walled, reinforced metal OD
- Corrosion-proof spacers feature multiple vent holes for enhanced lubrication
- Meets or exceeds performance and warranty features of all other competitors' wheel seals

BENEFITS

- Provides superior sealing benefits on damaged and worn axle shoulders
- Superior contamination exclusion system prevents seal lip damage and provides excellent temperature range capabilities
- Durable, heavy construction provides effective heat transfer away from the sealing lip
- Oversized metal OD eliminates spinning or walking of the seal out of the hub bore and includes black bore sealant
- Provides free flow of lubricant to the sealing lip and ensures a longer, trouble-free service life
- Great for brake job services
