OEM and Competitive Interchanges

Note: All interchanges in this publication are for reference only and include discontinued and obsolete part numbers. Please check the appropriate price list for current availability.

Direct Interchanges will replace the competitor's part without change or modifications and are published in **bold print style**.

Application interchanges may appear different but will perform the same function as the competitor's part without change or modification and are published in normal print style.

It is the user's responsibility to verify part identification against the competitor or OEM data before attempting to use as a reverse crossover.

Although care has been taken to ensure the accuracy of the data contained in this publication, Dayton Parts, LLC does not assume any liability for errors or omissions.

The names and reference numbers of manufacturers and suppliers, other than Dayton Parts, LLC, used in this publication are shown only to assist our customers in identifying replacement parts. Under no circumstances does Dayton Parts, LLC imply that the parts are of these OE manufacturers.

© Copyright 2016, Dayton Parts, LLC, all rights reserved. No part of this publication covered by the copyrights hereon may be reproduced or copied in any form or by any means whatsoever without the expressed prior written permission of Dayton Parts, LLC. Leaf spring part numbers (SRI part numbers) are copyright of the Spring Research Institute.
