CARGOMAXXI HD™

HEAVY-DUTY SHOCK ABSORBERS PRODUCT CATALOG

MAXIMUM APPLICATION COVERAGE

Choose the shock that best meets your vehicle's needs. Cab, Standard and Steering Damper shocks are available for Class 7 and 8 applications, including:

On- and off-highway applications including logging trucks and construction equipment.

Trucks, tractors and trailers from every major manufacturer.

Vocational vehicles including dump trucks, construction and waste haulers.

Utility vehicles including cube vans, moving vans, and similar intermediate cargo vehicles.

Fire and rescue from heavy fire engines to medium-duty and auxiliary vehicles.

Last-mile delivery applications for all common North American sizes.

Tow trucks for cars, trucks, and tractors.

RVs in Class A,B,C and trailer sizes.

Buses including city and commercial fleets, shuttles, school buses, and more.

MAXIMUM PERFORMANCE BENEFITS

Superior welds and eye ring design for exceptional strength and enhanced durability.

Square-edged piston seal is designed for low friction providing consistent damping to prevent oil leakage.

Thick-shouldered permanent-mount bushings with exclusive rubber compound designed to last the life of the shock.

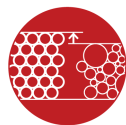

Solid chrome-plated piston rods offer superior strength. Plating provides exceptional corrosion resistance to prevent premature seal failure.

Modern valve disc technology dynamically adjusts to all ride conditions for optimal performance in heavy-duty applications.

Double-lip rod seals proven in durability tests to reduce misting, maintaining the integrity of the damping performance.

Nitrogen gas-charged system provides faster response time to road changes and reduced fade.

Synthetic oil offers optimum temperature-change tolerance for more consistent performance.

Electrostatic paint coatings, with thickness virtually double that of the nearest competitor, for enhanced corrosion protection.

Interior/exterior 360° robotic welds for superior weld strength.

2/200

BEST-IN-CLASS WARRANTY

CARGOMAXX HD shock absorbers are backed by a best-in-class warranty: 2 years or 200,000 miles. And with over 2,200 distributor locations, you'll be covered coast-to-coast.

Visit www.cargomaxxhd.com for a map of distributor locations.

SHOCK FAILURE INSPECTION GUIDE

Advanced suspensions require superior shock performance, protecting the system from excessive wear and vibration damage. Worn shocks lose their ability to dampen suspension oscillation allowing vibrations throughout the system and up into the cab of the vehicle. Protect the driver, vehicle and payload! Ensure shocks are performing at their best with frequent walk-around inspections.

KNOW WHAT TO LOOK FOR

FLUID LEAKS caused by:

- Poorly engineered inner and outer seals allowing dirt/debris to penetrate the inner seal
- Seal failure due to extreme wear, contamination or defective piston design

CARGOMAXX HD DIFFERENCE

- **Solid chrome-plated piston rod** – enhanced durability
- **Double lip seal** – prevents dirt/debris from damaging inner seal
- **Square-edged piston seals** prevent oil bypass enhancing performance

BROKEN MOUNTS causing:

- Premature wear on the bushing
- Broken, bent or deformed eye rings
- Loose rubber bushings

CARGOMAXX HD DIFFERENCE

- One piece, cold-forged, **robotically-welded** eye rings and stud mounts
- **360° eye-ring to piston rod weld**
- Internal control of rubber bushings

BUSHING FAILURES leading to:

- Metal-to-metal contact reducing stability and control
- Increased wear on surrounding parts

CARGOMAXX HD DIFFERENCE

- **Thick-shouldered, permanent-mount bushings** ensure longevity
- High quality **bushings lock into place**; no twisting, moving or slipping
- **Enhanced rubber compound** for extended bushing life

**BEST-IN-CLASS
WARRANTY
2/200**

UPGRADE YOUR RIDE

Today's fleets have a lot riding on their shocks: payload, uptime, safety, driver comfort, ancillary components, and more. When it's time to replace, don't trust your vehicle's ride to anything other than premium replacement components – ask for CARGOMAXX HD™ shock absorbers.

MAXIMUM FEATURES

- Superior welds and eye ring design
- Square-edged piston seal
- Thick-shouldered, permanent-mount bushings
- Solid chrome-plated piston rods
- Modern valve disc technology
- Double-lip rod seals
- Nitrogen gas-charged system
- Synthetic oil
- Electrostatic paint coatings,
- Interior/exterior 360° robotic welds
