SAFETY

SPECIALTY ITEMS

Made in Canada ZAFETY LUG LOCKS

A Zafety Lug Lock is a wheel nut security device that helps to prevent wheel-off accidents. It is a simple and effective device that can be installed on all types of vehicles, including trucks, trailers, buses, and coaches.

- Reduces the risk of wheel-off accidents
- Prevents wheel hub, stud, and rim damage
- Provides a clear visual check in all conditions
- Cost-effective
- Easy to install and remove

**33MM AVAILABLE
IN COLORS SHOWN**

TUFF DECK

TuffDeck Semi-Truck Deck System: This is a type of deck that is specifically designed for semi-trucks. It is made from a patented polymer that is stronger and lighter than aluminum, making it a more durable and efficient option for truck owners. TuffDeck semi-truck decks are also designed to provide better traction and grip, which can help to reduce slips and falls.

- **32 X 32 BLACK, ORANGE, AND MILITARY SAND**
- **22 X 32 BLACK ONLY**

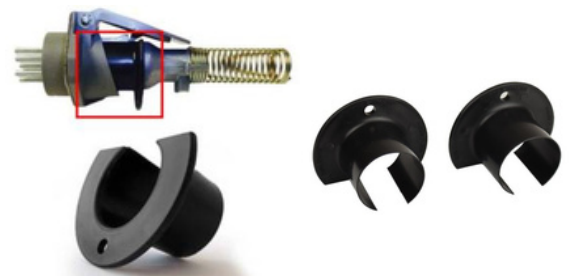

NEW ITEM! PRESSURE TECH

pressureTech is a configurable pressure-monitoring sensor platform used for monitoring tire pressure, suspension pressure, onboard scales and virtually any other pneumatic system on a vehicle

SURE SHIM

Sure Shim Pigtail Shims are a simple yet effective way to secure pigtail plugs and prevent them from coming loose. They are made of a durable polypropylene blend that is resistant to UV rays, corrosives, and extreme cold. The shims simply slide over the plug and hold it firmly in place, ensuring a solid connection that will not vibrate or come loose. This can help to prevent electrical problems, such as flickering lights or trailer lights that go out altogether.

TIME SAVERS

SPECIALTY ITEMS

NEW ITEM!

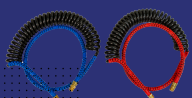

ROCKPRO WINDSHIELD REPAIR KIT

The RockPro attaches to a car's windshield, draws air out from a chip, and applies our custom epoxy to fix your car chip. It only takes minutes. Great tool for all fleets and owner/operators

RATCHET HANDLE

The Good-N-Tight ratchet strap tightening handle is a tool designed to simplify and enhance the process of tightening ratchet straps. It provides three times the leverage compared to tightening ratchet straps by hand, reducing strain on the user's body and ensuring that straps are securely tightened.

REFLEXALLEN KINK RESISTANT AIR COILS

Reflexallen air brake coils are a type of air brake hose that is designed to resist kinking and tangling. They are made of a special type of tubing that can flex, fold, bend, and stretch without losing its shape. This makes them ideal for use in trucks and trailers, where air brake hoses are often subjected to a lot of stress.

TIREMASK

A tire mask system, also known as a wheel masking kit, is a tool used to protect tires from overspray during painting or coating processes. It is commonly used in automotive and industrial settings to prevent paint from adhering to tire surfaces, ensuring a clean and professional finish saving lots of time.

FUEL CAP COVERS

The locking fuel cap cover is a great way to protect your fuel from theft and your fuel cap from corrosion. It is made of durable steel and features a heavy-duty lock that will keep your fuel safe. The cover is designed to fit the truck brands and models: Hino, International, Freightliner, John Deere Tractors and Gators and Universal fit.

PATRIOTIC MUD FLAPS

These are a classic and timeless option that will show your pride in the United States. They are available in 4 styles, so you can find the perfect pair for your truck.
